Cathedral of the Good Shepherd - COVID Food Relief Fund June 7, 2021

All of us are well aware that the pandemic has hit Peru's economy, and that many people who were already living on very little are now suffering from hunger. In Lima alone, some 2 million people are living on just one solid meal a day.

Many of us would willingly lend a hand to the very poorest people if we knew how, and so the Good Shepherd has set up the COVID Food Relief Fund where we can make a monthly donation to provide food for the hungry.

What will we do with the donations?

Donations will go to the "common pots", which have sprung up as a result of Covid-19. In each street, people bring what food they have and cook it together to have their daily meal. Members of our congregation work with the organisers, and will provide donors with regular receipts and photos to account for the food bought with donations. Funds will go initially towards the common pots in fifty-seven shanty towns in South Lima, which currently provide one daily meal to about 2000 families.

Join us in providing support for these common pots. Every donation will make a difference.

Thank you in advance for your support.
